

# Stoneford Coffee Table

Short Description: After a long day of sailing through the waves and soaking up the sun, not hing feels better than cleaning off and kicking back - but that doesn't mean you have to leav e the ocean behind! Decorate your den with seafaring spirit with just a few fantastic accents. Start by piling whale-patterned pillows atop skirted white sofas, then cast a warm and relaxi ng glow with weathered candle lanterns around the room, and finally anchor it all with this c lassic coffee table. Crafted of manufactured wood and particle board, it offers a clean-lined s ilhouette with cross side panels and a versatile solid finish. Add on a sea glass-inspired bowl so you can set out a collection of monkey knots, or take a more traditional route with a mod el ship in the center. Need a little extra storage space? No problem! Just use the open lower shelf to stow weathered leather tomes and coral decor.
