

Doylestown Blue Area Rug

Short Description: Bring antiqued inspiration and a patterned foundation to any room with this area rug. Machine woven in Turkey from 100 percent polypropylene, this synthetic rug's .25-inch pile is embellished with a faded Persian-inspired, floral motif in a white and blue color palette. Use this sophisticated area rug as a warm anchor to a contemporary aesthetic in your living room. Paint paneled walls white with matching trim to contrast wood floors. Roll out this rug, and then top it with a sleek glass coffee table, woven and knit poufs, and acrylic side tables that flank a white sofa. Then, add in mercury glass sculptures and candles to finish off the look.
