

Alto Red/Blue Area Rug

Short Description: Put the focus on floors in any space of your home with this elegant rug, the perfect foundation for traditional ensembles. The Persian motif with scrolling botanical designs anchors this accent in classic style, play well with both warm wood-toned floors and crisp white tiles. Power-loomed from polypropylene, this rug is stain- and fade-resistant, making it the perfect choice for high-traffic areas and spill-prone spaces. Try rolling this rug out in your living room to anchor your space in traditional style, then build on that look by adding a brown leather Chesterfield sofa and a pair of white linen arm chairs. Next, add an espresso-finished coffee table to the space, then top it with a stack of glossy art books, a small red rose bouquet, and a trio of small scented candles.
