

Tyrese Blue Area Rug

Short Description: Set an Eastern-influenced foundation for an eclectic aesthetic with this charming ornate area rug. Machine woven in Egypt from easy-to-clean nylon with a slip-resistant latex backing, this charismatic design showcases an overdyed Persian-inspired motif in vibrant hues of blue. Establish an eclectic aesthetic by rolling this rug out in to define the space, then arrange a button-tufted velvet tuxedo sofa and a leopard skin slipper chair around an ornately carved mahogany coffee table. Set Asian-inspired ceramic garden stools between the seating, and add a distressed leather pouf to the mix to use as an ottoman or extra seating at your next soiree. Lean into pattern-mixing style by tossing vibrant ikat accent pillows on the sofa, adding an embroidered throw blanket to cozy up with while sipping tea, reading a music biography, and planning your next adventure.
