

DOUBLE PEDESTAL TABLE

SKU: OUT200

Drawing inspiration from early French and American architecture, the Hughes Durham Dining Table combines modern functionality with woods reclaimed from old buildings for a found appeal that is as striking as it is livable. With unique characteristics defined by the geographic region from which the timbers originate, pine and elm are bleached, sanded and finished to heighten the woods' raw beauty. Available in 110" and 87" lengths. Some color variation in photos of our products, including furniture finishes, leathers and fabrics, is possible due to lighting and differing resolution quality on computer devices.
