

BOSTON SUPPERS DINING TABLE

SKU: OUT204

Seat more guests, have more serving space and create an entertaining space with the use of table leaves. Finding a place to store leaves can be a nuisance but with self-storing leaves everything is right where you need it when extending your table. Seat extra guests at holiday dinners, have extra serving space for a large meal and return everything to normal when the party is over. The leaf is stored underneath the table, out of sight and out of mind until you need it. No searching the house for where you put the extra leaf with the self-storing feature.
